

Lulanzi Dispensary Fundraiser
November, 2009

What is a dispensary? ~ A dispensary serves as many different things.

- *A doctor's office
- *An urgent care facility
- *An Emergency Room
- *A public health and health education facility
- *A labor and delivery center
- *A limited care, short term hospitalization center for things like fractures, malaria, and dehydration
- *A place for HIV testing and treatment

Why a dispensary?

- *The people of Lulanzi have access to a dispensary only if they can somehow travel 15 km (about 10 miles) over rough roads by foot. Which is basically no access at all.
- *The need for these health services will be increasing due to the paving of the Lulanzi road, which brings increased HIV rates, increased injuries, and increased accidents.

What is our goal?

- * **To raise \$10,000 during the month of November to be matched (3 to 1) with funds from the "Growth Fund." Funds will be used for building materials.**

I am unable to attend the fundraiser lunch on November 1, but would like to make a donation.

Name _____

Enclosed is my donation in the amount of \$_____

(Make checks to Christ Lutheran Church with Lulanzi Dispensary on the memo line.)
